POSTDOCTORAL POSITIONS IN OCEANOGRAPHY AT THE MILLENNIUM INSTITUTE OF OCEANOGRAPHY (IMO), UNIVERSITY OF CONCEPCION, CHILE

The Millennium Institute of Oceanography (IMO) is a new Center of Excellence devoted to fundamental oceanographic research in the South Pacific. IMO’s initial main research lines are:

1. **Mesoscale Processes**: The role of mesoscale activity in governing energy and matter transfer and ecosystem dynamics in open ocean ecosystems
2. **Oceanic Variability**: Impact of large-scale perturbations on the transport and gradients in physical-chemical water properties, and on the dynamics of the South Pacific
3. **Adapting to a Changing Ocean**: Adaptations of planktonic (micro) organisms to changing ocean chemistry and their impact on biogeochemical cycling
4. **The Deep Ocean**: Community structures and the biogeochemical characteristics of the deep and abyssal waters of the South Pacific

For more information please visit: [http://imo-chile.cl/temas-de-investigacion/?lang=en](http://imo-chile.cl/temas-de-investigacion/?lang=en)

At least two full-time postdoctoral positions are available immediately at the Millennium Institute of Oceanography (IMO) to undertake innovative research and to develop questions in any of these research lines and in association with two, or more, of IMO’s Associate Researchers. Candidates will have to demonstrate experience and motivation to do research in any of them, using observational, experimental and/or modelling approaches. Independent of the area of preference, candidates will be expected to collaborate from his/her field in any of the other areas.

**Applications will be received until November 15th 2014.** The work of the selected postdocs will be based at any of the Institutions of the Associate Researchers (Concepcion, Santiago or Valparaiso - Chile). The appointment will be for a minimum of one year and with an extension of four years provided that applications to the national postdoctoral program are made. The annual gross salary is clp (Chilean Pesos) 1.330.000.

**Requirements include**

1. Ph.D. degree completed before taking up the appointment and received no earlier than January 2010
2. Curriculum Vitae
3. A letter expressing the motivation of the candidate for undertaking the position in connection with IMO’s research lines
4. Names of three scientists with whom the candidate has previously worked or interacted, including emails and telephone numbers
Information and Applications

Ms. Monica Sorondo
Administrative Assistant, Millennium Institute of Oceanography (IMO)
University of Concepción - www.udc.cl
P.O. Box 1313, Concepcion 3, Chile

Millennium Institute of Oceanography (IMO)

Associate Researchers

1. Dr. Osvaldo Ulloa, Scientific Director
   Department of Oceanography
   Faculty of Natural and Oceanographic Sciences
   University of Concepcion
   ouullo@udc.cl

2. Dr. Rubén Escribano, Deputy Director
   Department of Oceanography
   Faculty of Natural and Oceanographic Sciences
   University of Concepcion
   rescribano@udc.cl

3. Dr. Carmen Morales
   Department of Oceanography
   Faculty of Natural and Oceanographic Sciences
   University of Concepcion
   camorale@udc.cl

4. Dr. Wolfgang Schneider
   Department of Oceanography
   Faculty of Natural and Oceanographic Sciences
   University of Concepcion
   wschneid@udc.cl
5. Dr. Cristian Vargas  
   Department of Aquatic Systems  
   Faculty of Environmental Sciences and Environmental Sciences Center EULA Chile  
   University of Concepcion  
   crvargas@udec.cl

6. Dr. Oscar Pizarro  
   Department of Geophysics  
   Faculty of Physical and Mathematical Sciences  
   University of Concepcion  
   orpa@profc.udec.cl

7. Dr. Peter von Dassow  
   Department of Ecology  
   Faculty of Biological Sciences  
   P. Universidad Católica de Chile  
   pvondassow@bio.puc.cl

8. Dr. Samuel Hormazábal  
   School of Ocean Sciences  
   Faculty of Natural Resources  
   P. Universidad Católica de Valparaíso  
   samuel.hormazabal@ucv.cl – sam.hormazabal@gmail.com

Millennium Institute of Oceanography (IMO)  
Adjunct Researchers

1. Dr. Ricardo De Pol  
   Department of Oceanography  
   Faculty of Natural and Oceanographic Sciences  
   University of Concepcion  
   ricdepol@udec.cl

2. Dr. Laura Farias  
   Department of Oceanography  
   Faculty of Natural and Oceanographic Sciences  
   University of Concepcion  
   lfarias@profc.udec.cl
3. Dr. Pamela Hidalgo  
Department of Oceanography  
Faculty of Natural and Oceanographic Sciences  
University of Concepcion  
phidalg@udec.cl

4. Dr. Aldo Montecinos  
Department of Geophysics  
Faculty of Physical and Mathematical Sciences  
University of Concepcion  
amonteci@dgeo.udec.cl

5. Dr. Carolina Parada  
Department of Geophysics  
Faculty of Physical and Mathematical Sciences  
University of Concepcion  
carolina.parada.veliz@gmail.com

6. Dr. Rodrigo De la Iglesia  
Department of Ecology  
Faculty of Biological Sciences  
P. Universidad Católica de Chile  
r delaiglesia@bio.puc.cl

7. Dr. Marcelo Oliva  
Institute of Natural Sciences Alexander von Humboldt  
University of Antofagasta  
marcelo.oliva@uantof.cl

8. M.Sc. Pablo Rosenblatt – Outreach Director  
Faculty of Biological Sciences  
P. Universidad Católica de Chile  
pablorosenblatt@gmail.com
